BETTER THAN THE SMILES OF KINGS. To bring health and happiness to the nomes of suffering women is a mission be fore which royal favor sinks into insignificance. What earthly benefaction can compare with one which protects from

"That dire disease whose ruthless powe Withers beauty's transient flower?" which gives ease for pain, joy for sorrow, smiles for tears, the roses of health for the pallor of disease, the light, elastic step for dragging weariness, nights of soft repose for heavy hours of tossing restlessness, ing vigor for languishing dulness, the swelling lines of full grown beauty for the sharp and withered form of emanciation, a long life of mental, physical, social and domes tic enjoyments for a few sad days of pain and gloom, ending in an early grave? Such is the mission, such are the results of Dr. J. Bradfield's Female Regulator, which hence truly and appropriately styled "wo man's best friend."

by buying their goods from the Great New York House in this piace and Crystal Springs. You may think the above is an advertising scheme, but I think I can snow you from figures below how it can be done. In the first place there are five thousand families in the county that trade upon an average of two hundred dofars per family, which would amount to one million dollars per amount that they speak? I think elsewhere. But I will put it down at five per cent, making a saving on one million dollars of fifty thousand dollars; and I now propose to give five per cent off in cash on all bills that exceed ten dollars, which will amount to fit thousand more, making ONE HUNDIGED THOUSAND DOLLARS SAVED. The question may arise in the minds of some, how this can be done? I will explain, that I buy goods in such quantities that I get a percent off of from two to ten per cent, and my sales are probably larger than those of any two houses in this part of the country. My sales last year were Two Hundred Thousand Dollars, nearly a quarter of a million. Now if I can sell this amount, with the same trouble and expense that other houses sell fifty thousand dollars worth, it is reasonable to suppose that I can sell much cheaper than my competitors, or in other words, if it costs houses sellling fifty thousand dollars worth, four thousand dollars clerk aire, house rent, etc., which is eight per cent of the amount sold to cover expenses, while my expanses are only two per ct, leaving a difference of six per cent which my customers get the benefit of. I now ask the people who trade in Hazlehurst and Crystal Springs to price goods at other houses and then come and see me, and I will not only sell them their ple who trade in Hazlehurst and Crystal Springs to price goods at other houses and then come and see me, and I will not only sell them their bills, but will discount any bill offered by other houses, and give the customer in addition their benefit of the five per cent. I ask you not only to read the above, but each and every one of you to buy your goods from me and take home your five per centin cash and lock it, up for the benefit of your wives and children; and should you days saved one million dollars, one third as much as the taxable property in this county is worth today; ind should you sil put it in bank togethor it would give you more capital than any bank in

If you will look back to the first year after the war and had such an offer been made you, and had you accepted it, you might to-day start a bank in this town with one million, five hundred thousand dollars, car ai.
